## He Did Farm Work in Indiana For 25 Cents a Day.

By this time Abraham had become an important member of the family. He was remarkably strong for his years, and the work he could do in a day was a decided advantage to Thomas Lincoln. The ax which had been put into his hand to help in making the first clearing had never been allowed to drop; indeed, as he says himself, "from that till within his twenty-third year he was almost constantly handling that most useful instrument." Besides, he drove the team, cut down the elm and linden brush with which the stock was often fed, learned to handle the old shovel plow, to wield the sickle, to thrash the wheat with a flail, to fan and clean it with a sieve, to go to the mill and turn the hand, earned credit into the store, he learned all the trades the settler's boy must know, and well enough so that when his father did not need him he could bid him to the neighbors. Thomas Lincoln also taught him the rudiments of carpentry and cabinet making, and kept him busy some of the time as his assistant in his trade. There are houses still standing in and near Gentryville on which it is said he worked. The families of Lamar, Jones, Crawford, Gentry, Tarnham and Richardson all claim the honor of having employed him upon their cabins. As he grew older he became one of the strongest and most popular "hands" in the vicinity, and much of his time was spent as a "hired boy" on some neighbor's farm. For 25 cents a day—paid to his father—he was hostler, plowman, woodchopper and carpenter, besides helping the women with the "chores." For them, so say the legends, he was ready to carry water, make the fire, even tend the baby. No wonder that a laborer who never refused to do anything asked of him, who could "strike with a mallet heavier blows" and "sink an ax deeper into the wood" than anybody else in the community, and who at the same time was general help for the women, never lacked a job in Gentryville. Ida M. Tabbell in McClure's Magazine.

Other sore tribulations of the poor member of parliament are that his opinions are dictated by his leaders—his movements controlled by the whips. Party discipline is very strict and violations of it, however slight, are rarely condoned. If a member is bold enough to take an independent stand in regard to any of the political questions of the day, his speech in the house explaining his position is received with scoffs and jeers by his colleagues, and what is perhaps more uncomfortable, approving cheers by members on the other side. If he persists in this course, he is regarded as a crank and a faddist, and is severely "cut" by his party. Again, strongly worded and heavily underscored communications, demanding his immediate attendance at Westminster, are frequently delivered to him at the most inopportune moments—when he is just sitting down to a delightful little dinner or about to leave his house for a pleasant night at the Gaiety theater—and if, yielding to the temptations of the flesh, he ignores the peremptory call of political duty, his past services are forgotten, he gets a solemn lecture from the chief whip on the enormity of his offense, and, mayhap, his name is published in an official "black list" of defaulters, or he comes across a nasty little paragraph exposing his neglect of duty in the local newspaper which most widely circulates among his constituents.—Chambers' Journal.

## SMALLER THAN USUAL

"Pellets" are superior in a great many ways to all mineral waters, sedlitz powders, salts, castor oil, fruit syrups, laxative tablets and other purgative compounds. Made of concentrated vegetable ingredients, they act in a mild, natural way. Their secondary effect is to keep the liver active and the bowels regular, not to further constipate, as is the case with other pills. They don't interfere in the least with the diet, habits or occupation, and produce no pain, griping or stool to the system. Dr. Pierce's Pleasant Pellets cure biliousness, sick and bilious headache, dizziness, costiveness, or constipation, sour stomach, loss of appetite, coated tongue, indigestion, or dyspepsia, windy belchings, "heart-burn," pain and distress after eating, and kindred derangements of the liver, stomach and bowels. The "Pellets" are easily dissolved in the stomach and absorbed into the blood, stimulating a flow of bile from the liver, and arousing to activity all the glandular secretions. Thus they act in nature's own way. In proof of their superior excellence, it can be truthfully said, that they are always adopted as a household remedy after the first trial. Put up in glass vials, therefore always fresh and reliable. One little "Pellet" is a laxative, two are mildly cathartic. As a "dinner pill," to promote digestion, take one each day after dinner. To relieve distress from over-eating, they are unequalled. They are tiny, sugar-coated granules; any child will readily take them. One vial, always in favor.

ONE PRICE GROCERY STORE.

Under the recent act of Congress the President is authorized to appoint three commissioners whose duty it will be to proceed to Venezuela and investigate the claims of the British Government to the disputed territory. The act authorizing the commission appropriated \$100,000 for its use. The President has tendered places on the commission to Edward J. Phelps of Vermont and Robert T. Lincoln of Illinois, both of whom have been Ministers to England, and the third place will probably be tendered to one of the Justices of the Supreme Court.

Much will depend upon the report of this commission as to whether there will be any trouble with England. If it finds that England is not claiming more territory than it is entitled to the war feeling in the United States will subside, as there will be no cause for war. But on the other hand should it find that Great Britain is encroaching upon the territory of Venezuela, then Salisbury's government or the United States will have to back down to avoid a war. If a majority of the British Parliament opposes the course of Lord Salisbury a vote in the House of Commons will determine the fact and the Salisbury Ministry will resign. In that event it will be an easy matter for the new Ministry to accept the report of the United States Commission and that will end the controversy.

Whatever Great Britain may do, however, it is not likely that there will be a "back down" on the part of the United States. There will be a Presidential election next year and from the tone of the press, and the pulpit, too, at the present time, the party that would not uphold the Monroe doctrine could not expect to win at the polls. There are hundreds of thousands of men in the United States who profess to be eager for the fray and would immediately respond to a call for volunteers. Then there are many staid, sober individuals who would not object to war because it would increase the demand for products of all kinds and make times better than they have been for thirty years, while there are very many others who contend that it is not much more expensive to maintain an army than it is to support prisons and poorhouses, and that there are many young men who cannot get employment who are anxious for an opportunity to fight for their country.

THEY UNDERSTAND EACH OTHER

Reports from Washington state that a thorough understanding is believed to have been arrived at between the President and the Republicans and Democrats in Congress, by the terms of which Mr. Cleveland will approve the tariff bill. It was agreed on the part of the Republican leaders to make the bill an emergency measure, but limited its operations to August 1, 1896. The President was satisfied that this would be a practical admission that the Wilson Act would ultimately yield a sufficiency of revenue. It was further agreed on the part of the Republicans to push the bond bill which is laid on the lines of the President's message.

It was hoped at the White House that the Senate would pass the bill as a Republican measure, but the discovery that it provides for the retirement of the outstanding Government notes dissipates that hope.

It seems that the Administration and the Republican leaders have a full understanding. They may for effect publicly berate each other, but privately they are in complete accord on the tariff and bond bills. The tariff bill is for revenue only and the bond bill is based on the suggestions or recommendations of Mr. Cleveland's message. But one is Republican and the other Democratic and that satisfies the ultra partisans, who pay no attention to principles, but lay great stress on names, though both are for the gold trust.

PRESIDENT CLEVELAND is now the leader of the Republican majority in Congress. The Czar of the White House is a bigger man than Boss Reed, the latter in his speech accepting the Speakership intimated that this Congress would be credited for doing nothing. Czar Cleveland said: "Mr. Reed, keep your men in line during the holidays and pass a bond bill." Mr. Reed obeys the command.

Dr. Eugene F. West, charged with the murder of Addie Gilmore in San Francisco, has been acquitted. He took the stand in his own behalf and testified that the criminal operation had been performed on the girl before she came to his office, and that he had given the body to Dr. A. S. Tucher for dissecting purposes. Dr. Tucher partly corroborated the statement.

Porter Brothers, the dealers in dried fruits in San Francisco, announce that they are unable to meet their payments and ask for an extension of time. Heavy investments in fruit lands and warehouses are said to be the cause of the failure. The liabilities are believed to be large.

The Silver State does not desire to be cruel, but it cannot forbear from prophesying that the result in 1896 will be even more disastrous from a political standpoint for the Republicans in Nevada than it was in 1894, when they did not elect a single State officer.

CONGRESSIONAL PROCEEDINGS.

Amending the Tariff and Bond Bills.

WASHINGTON, December 27.—In the Senate to-day Burrows presented a bill to be considered as an amendment to the House Tariff bill, imposing 60 per cent. of the duty under the law of 1890 on articles placed on the free list under the present law. It was referred to the Finance Committee. A resolution directing the Secretary of the Navy to accept the ram Katahdin was adopted. Hill offered and advocated at length the following resolution:

Resolved, That any bonds hereafter issued under the laws now in force may in the discretion of the Secretary of the Treasury be made payable in United States gold coin of the present standard, weight and fineness, or in standard silver dollars at the option of the holders of such bonds, but no bond containing such option shall bear a rate of interest exceeding 3 per cent. per annum, payable quarterly.

At 2:30 p. m. Hill's resolution was laid aside and at 2:40 p. m. the Senate adjourned until Monday.

A conference was held between Speaker Reed and the House managers to-day, and the result was an agreement for a vote on the Bond bill at 3 o'clock to-morrow, instead of 5 o'clock to-day. In the meantime it is to be open to debate. A further arrangement was made by which the Ways and Means Committee before reporting that it was not the purpose to retire greenbacks. It was also arranged that there would be separate votes, one on the proposition for a fifty-million bond issue and another on an unlimited issue.

The concessions made overcome the protests against the haste which led last night to the appointment of a committee of Republican members to wait on Speaker Reed.

The Populists voted with the Democrats against the rule. Crisp, Bailey and McMillan consumed the twenty minutes allowed the Democrats for speeches on the rule, and the Republicans made no reply to their arguments.

Chairman Dingley of the Ways and Means Committee has received a letter from Secretary Carlisle which is private, but furnishes some information concerning the condition of the Treasury. Dingley says that the Secretary offers to furnish the House with all the data that may be needed.

The condition of the Treasury is represented to be very serious, and Carlisle urges legislation for gold bonds. Dingley has informed the Secretary that gold bonds are out of the question and could not be considered. Secretary Carlisle did not say to Dingley that three per cent bonds cannot be floated and did not discuss this feature of the case. This denial is made because a report to this effect concerning the Secretary's letter was in circulation.

President Cleveland and his advisers, it is learned, are strongly opposed to the House bill, and this feeling caused Secretary Carlisle to write to Chairman Dingley. Aside from the very important objection that the bonds are to be redeemed in coin instead of gold as recommended by the President, it is understood that the requirement that the bonds be sold by subscription meets with disapproval. The experience of the Government, it is said, with sales by advertisement shows the ineffectual character of this means of protection of the gold reserve.

TELEGRAPHIC NOTES.

Four tons of giant powder exploded at Littleton, near Chicago, and the people of the Lake City thought it was an earthquake.

San Francisco importers are alarmed over the tariff and are withdrawing their goods from bond. Goods valued at \$2,000,000 are in the custom house.

Between \$3,000,000 and \$4,000,000 in gold is ordered for shipment from New York to Europe to-day. England is determined to get our gold before the war begins.

Miss Katie McNamara, aged 19, of Sacramento, saturated a cloth with turpentine and laid it upon her breast as she was retiring to cure a cold. She took a lighted candle and opened the door. A gust of wind blew the candle flame and ignited the turpentine. She suffered in intense agony for several hours before death came to her relief.

Rich Gold Quartz.

J. C. B. Stanley, who is mining in White Horse district, seven miles from Wadsworth, has brought some rich quartz to town. He is the principal owner of the White Horse mine, which is prospected by a shaft to a depth of 100 feet. The samples are from the bottom of the shaft and they contain wire gold visible to the naked eye.

Mr. Stanley is a veteran of the Florida and Mexican wars, but is yet rugged and capable of carrying a musket. He is confident that he has a fortune in the White Horse, and the JOURNAL hopes that his confidence is not misplaced.

The Modern Mother

Has found that her little ones are improved more by the pleasant laxative Syrup of Figs, when in need of the laxative effect of a gentle remedy than by any other, and that it is more acceptable to them. Children enjoy it and it benefits them. The true remedy Syrup of Figs is manufactured by the California Fig Syrup Co. only.

The Dispatch says: One of the miners at White Horse caught seven quail in a trap last week. That flock of quail has been fed for several years and will be missed by several friends.

A Household Treasure.

D. W. Fuller, of Canajoharie, N. Y., says that he always keeps Dr. King's New Discovery in the house, and his family have always found the very best results follow its use; that he would not be without it, if procurable. G. Dykeman, Druggist, Catskill, N. Y., says that Dr. King's New Discovery is undoubtedly the best Cough remedy; that he has used it in his family for eight years, and it has never failed to do all that is claimed for it. Why not try a remedy so long tried and tested. Trial bottles free at S. J. Hodgkinson's, Drug Store. Regular size 50c. and \$1.00.

DIED.

ROBINSON—In Reno, December 27, 1895, Isabelle Robinson, a native of Virginia City, Nev., aged 23 years.

(The funeral will take place this afternoon at 3 o'clock from the residence of Mrs. George Larcombe, a sister of deceased.)

KNOWLEDGE

Brings comfort and improvement and tends to personal enjoyment when rightly used. The many, who live better than others and enjoy life more, with less expenditure, by more promptly adopting the world's best products to the needs of physical being, will attest the value to health of the pure liquid laxative principles embraced in the remedy, Syrup of Figs.

Its excellence is due to its presenting in the form most acceptable and pleasant to the taste, the refreshing and truly beneficial properties of a perfect laxative; effectually cleansing the system, dispelling colds, headaches and fevers and permanently curing constipation. It has given satisfaction to millions and met with the approval of the medical profession because it acts on the Kidneys, Liver and Bowels without weakening them and it is perfectly free from every objectionable substance.

Syrup of Figs is for sale by all druggists in 50c and \$1 bottles, but it is manufactured by the California Fig Syrup Co. only, whose name is printed on every package, also the name Syrup of Figs, and being well informed, you will not accept any substitute if offered.

**WEATHER BULLETIN.**

General Forecast for January  
(By Prof. W. T. Foster.)  
St. Joseph, Mo., December 27.—My last bulletin gave forecasts of the storm wave to cross the continent from January 2d to 7th, and the next will reach the Pacific coast about January 7th, cross the west of the Rockies country by the close of the 8th, the Great Central Valleys 9th to 11th and the Eastern States the 12th.  
This disturbance will cause more precipitation than the last one did, but the principal rains and snows will fall after the 13th.  
The warm wave will cross the west of Rockies about the 7th, the Great Central Valleys the 9th and the Eastern States the 11th.  
The cool wave will cross the west of Rockies country about the 10th, the Great Central Valleys the 12th and the Eastern States the 14th.  
This storm will spend its greatest force on the Pacific and Atlantic coasts and be rather quiet in the Central Valleys.

**GENERAL JANUARY WEATHER**

The first and last weeks of the month will be warmest and the real winter weather will come in the middle weeks, particularly following the 15th.  
The average temperature for the whole month will be very low in the Ohio, the Upper Mississippi and Upper Missouri Valleys, in the vicinity of the Great Lakes and Manitoba.  
The temperature will not average so low on the Atlantic coast and will generally be above or about the average in the Southern States.  
Severe cold waves and below average temperatures will occur in the vicinity of Philadelphia and Washington, but north and south of these points in the Atlantic States, while cold snaps will occur, the general average temperatures for the month will not be far from normal.  
High temperature averages will prevail on the Pacific coast and generally west of the Rockies.  
Draw a line from Chicago by way of Omaha, Kansas City, Cincinnati, Toledo and back to Chicago and within this circle animal and vegetable life will suffer from January frosts and the ice men will be made happy.  
No general drought will occur in January and south of the 40th parallel precipitation will generally be slightly in excess.  
Draw a line from Winnipeg by way of Omaha, Chicago and Philadelphia and north of line will occur the principal deficiencies in precipitation while south of that line and west precipitation will be about normal.  
Three principal storm waves of very considerable force will cross the continent in January developing their greatest energies about the 3d to 6th, 13th to 22d and 29th to February 2d. The storm near the middle of the month will be of most importance and will bring a great variety of weather. With that storm wave will come one of the worst blizzards of the winter and one of the most severe freezes will follow.  
The above is as complete a forecast as can be given in writing. A more graphic description will be found in my January charts which will be sent free on receipt of stamp to subscribers to the paper in which this is published. I desire crop weather bulletins for 1891 and back years. Anyone having them will please correspond with me.

**HENEY'S PROPERTY.**

He Transfers a Big Block of It to Each of His Lawyers.  
About 9 o'clock Saturday night the Heney jury brought in a verdict of guilty. His attorneys must have anticipated the verdict, for on the same day they insisted on their fees and the following mortgages were transferred by him:  
To William Woodburn: Mortgages on Washoe property valued at \$6,000.  
To Tremor Coffin: A mortgage on San Francisco property valued at \$3,000.  
To his wife, Mary Heney: Two mortgages on property in this city valued at \$2,500.  
The Government officials hold that such transfers are null and void, and that the Government can follow and seize the property in satisfaction of the fine of \$5,000.  
The appeal learns that the mortgages were signed at midnight in the county jail.  
"The Irish Duke."  
A large audience attended the performance of "The Irish Duke" at the Opera House last evening. Professor P. M. Smith managed the play and the company was made up of local talent. The performance was fair and seemed to give very good satisfaction considering the short time that the play had been rehearsed. A feature of the entertainment was the splendid music of Hoskins' Orchestra. It was highly complimented by the audience, and particularly the clarinet solo by Leno Calvetti, which was given in a superbly artistic manner, a rousing encore being accorded the player. Little Lizette Hoskins caught the audience with her cute songs and she was given encore after encore until the little mite of humanity was almost worn out in endeavoring to please the audience. She was the star of the evening and the audience seemed determined to give her a reception that she would never forget. She has a great future before her and will, before many years roll round, be a recognized star in the musical world and will add one more to the galaxy that Reno has already furnished to the public.  
The New Toronto Restaurant is an excellent place to get a fine meal for 25c. White cooks.

**LOUIS JAMES' ENGAGEMENT.**

Will Give an Elaborate Production of "Othello" Monday Night at the Opera House.  
Renoites will see the first of legitimate drama of the season Monday night at the Opera House. The tragedy will be "Othello," with Mr. James as the Moor of Venice. Louis James needs no introduction here, or anywhere else in this country for that matter. His reputation is made; he is merely sustaining it and, rounding out a successful career. By nature and the improvements of his talents he is fitted for heroic parts. As Macbeth, Virginius and Othello he stands with a peer on the English speaking stage. Among the many Shakespearean plays that Mr. James has included in his repertoire, the leading one is "Othello." Aside from Mr. James' acknowledged fitness to the character of the Moor and the requirements of the play, "Othello" has more claim to popular endurance than any of the other tragedies of Shakespeare. The great love tragedy, "Romeo and Juliet," has a theme that will last as long as the world stands. So with "Othello." As long as love and jealousy last this play will appeal to the intelligence and sympathy of the public. It is a play of flesh and blood, truth and falsehood, life and death. Mr. James is unquestionably the greatest Othello now upon the stage. His conception follows the most conservative lines of tradition and analysis, and is in every respect an admirable one and appeals both to popular taste and critical attention. Messrs. Wagenhals & Kemper, Mr. James' managers, have given the play a superb production. Complete scenic equipment has been provided, and the costumes designed by Mme. Jahn and executed by Hermann. Mr. James' company is the strongest ever in the support of a legitimate star. It numbers twenty members, and includes: Guy Lindsey, William Harris, Harry Langdon, Collin Kemper, Tom Cooke, Miss Kruger, Florence Everett, Aphie Hendricks, etc., all well-known and tried legitimate players. The advance sale promises well.

**SULLY TO-NIGHT.**

The Great Comedian in "A Social Lion."  
One of the most inviting stage programs offered for patronage to the local amusement going public is the Irish comedy, "A Social Lion," with the particularly bright player of Celtic roles, Dan Sully, in the titular part. The play and player are old friends to the American public—the play having delighted thousands in all parts of the country; the player, by his series of strong character roles, diverse in their construction and environments, having won recognition among the limited number of deservedly popular stars. The play will be on the boards at McKissick's Opera House this evening. Seats on sale at Lake's news store.

**CHRISTMAS AT BROWNS.**

Interesting Exercises at the School House.  
EDITOR JOURNAL.—Christmas was appropriately celebrated by the good people of Brown's school district. The school-room was handsomely decorated with evergreens and bunting. The usual Christmas tree was dispensed with and in its place a delightful musical program was rendered by the local musical and literary clubs. There was a grand festival after the entertainment. A sumptuous repast was prepared by the good ladies of the district to which over forty persons dined. Ample justice and the unanimous expression of the participants was that they never had seen a merrier Christmas in Brown's district. R. W.

**Notice to the Public.**

Notice is hereby given to all whom it may concern that I will not be responsible for any bills incurred in working assessments on the White Horse Gypsum and extension of the gypsum mining claims in White Horse mining district, Washoe county, Nevada, except what is sufficient to hold my interest in said mining claims under the United States Statutes. J. J. QUINN. 11

Reno, Dec. 23, 1905.

**Justice Court.**

Judge Linn yesterday fined Dave and John, two Indians, who had been found guilty of disturbing the peace, \$20 each or 10 days in jail; also Henry Hoffman, for the same offense, \$10. Hoffman paid his fine, but the Indians went over the river to saw wood. Judgment was rendered in the case of J. N. Evans vs. the N. C. O. Co. for \$50 and costs, Evans having sued the company for \$50 for killing a cow and \$20 for obstructing a drain ditch.

**The Brule Case.**

The examination of Barney Brule for contempt of Court—alleged bribery of a witness in the mint shortage case—occupied the time of the United States District Court yesterday. A number of persons testified that Langevin, the witness, was not reliable, but the strange part of the proceeding is that some of those who give Langevin a bad name were at his house in the middle of the night.

**LOCAL AND GENERAL NEWS.**

Items From Here, There and Everywhere.  
At Elko Monday the temperature was twenty-nine degrees below zero and thirty-one at Halleck.  
Wm. Lindsay of Carson has found a ledge of ornamental stone near Bridgeport and has taken samples to San Francisco. He will send a carload to Knoxville, Tenn., as soon as he can get it out.  
The Silver State says John Taylor has struck a fine ledge of antimony ore in his mine at Bloody Canyon, between Unionville and Star, and a short time since shipped a carload of the ore to New York city.  
The machinery for the electric milling plant to be put up at Kennedy by the New Era company has arrived at Winnemucca from San Francisco and will be taken to Kennedy the first part of next week.

Mrs. C. F. Wagner of Albina, Oregon, has a nursing baby whose tongue is covered with hair of silken fineness. The physicians say it is an unparalleled case. A local museum man has already made Wagner, who is a poor man, an offer for the use of the child as soon as it can be safely taken from its mother.

On Christmas night Jack Horn of Carson offered to drink, on a small wager, two quarts of whisky at a sitting. The Appeal says he got the liquor down and was soon insensible. The doctors then worked over him several hours with a stomach pump and by heroic efforts managed to save a portion of the whisky. Horn was around all right yesterday morning.

It is reported that A. Livingston has purchased the undivided interest of William Zirn in his three marble quarries in Pine Nut. Many experts are of the opinion that at a little depth it will turn into gold-bearing quartz. This theory is borne out by recent developments in doing assessment work on the claims. Almost immediately under the surface the marble assumed a crystallized form.

**BREVITIES.**

The Monumental Hose boys will make their party on New Year's eve the event of the season. Professor Zimmer will assist the orchestra and the leap year feature will be immense.  
Was that Mr. Bothsides who said a few days ago that the Republicans were opposed to issuing bonds? Whoever it was he evidently did not speak with authority or know what he was talking about.

On account of the inclemency of the weather the stereopticon views which were announced to be given at Salvation Army Hall last Saturday were postponed until this evening when they will be given without fail.

The Appeal says Miss Moore, a school teacher at the Orphans' Home, complains that Mr. and Mrs. Beebe are interfering with her work. Miss Moore holds that she is answerable only to the Board. An investigation is being held.

The Supreme Court has rendered an opinion in the Storey county militia case in which J. H. Sutherland plaintiff, prayed for a writ of mandate to compel the Auditor to pay the State allowance to Company A for armory rent. The writ was denied and the militia do not get the allowance.

The Republicans have adopted Senator Peffer's view on the wool question. He advocated a tariff of six and a half cents per pound on unwashed wool, and the Republicans of the House unanimously agree with him. Senator Peffer is a Populist and it must be gratifying to him to have those who abused and vilified him a year or two ago admit that he was right.

The State Board of Dental Examiners in a recent report to Governor Jones say that one dentist has already left the State on account of the act of the Legislature of 1895, regulating the practice of surgery. Of the thirty-four dentists registered only two have complied with the law. It is the duty of every dentist to see that the law is enforced and it is the duty of every District Attorney to prosecute offenders. The report is signed by Dr. W. H. Cavell of Carson, President, and Dr. W. H. Rulien of Reno, Secretary of the Board.

Women as Magnets.

"You don't believe these stories about  
women being human magnets, do you?"  
Dora asked.

"Some of them are mighty attract-  
ing," David said, looking at her keenly.  
Dora blushed.

"I don't mean that," she said. "I  
mean their doing such great things—  
lifting half a dozen men and all those  
tricks. Do you believe it?"

"Well, I don't know," David reflect-  
ively answered. "I saw a woman today  
who wasn't more than 5 feet high and  
light as a feather—I saw her just lift a fin-  
ger—it was right in the street, crowds  
of people around her—she raised her  
finger and—"

"Well, for pity sakes what?" ex-  
claimed Dora impatiently. "Don't be so  
long about it."

"I don't go so far as to say she had  
electric powers," David pursued calm-  
ly. "I won't undertake to explain what  
it was, but this much I can vouch for,  
for I saw it with my own eyes—the mo-  
ment she raised that little finger—it had  
a faint pink tinge to it—a heavily load-  
ed street car that was passing came to  
an instant stop."

But Dora, with heightened color, de-  
clared that if ever another woman lived  
who was married to so mean a man, all  
she had got to say was that she pitied  
her.—New York Recorder.

**She Got an Answer.**

The son of an English earl, staying in  
Vienna, was one evening at a dinner to  
which also had been invited some of the  
most distinguished ladies and gentlemen  
of that city. One of the ladies, noted  
even among her intimate friends for say-  
ing shrewd but ungracious things, con-  
sidered the Englishman worthy of her  
somewhat embarrassing observations  
and smilingly asked him how it was  
that the English people generally spoke  
French so indifferently.

"Why, my lord," she added, encour-  
aged by the smiles of some of the oth-  
ers, "we Austrians use that tongue with  
the same freedom as we do our native  
language."

"Madame," was the biting rejoinder  
she had little anticipated. "I can only  
account for it by the fact that you have  
twice entertained the French army in  
your capital, and we have never per-  
mitted them to enter ours!"

**Squaring the Circle.**  
One of the problems that are as old as  
the science of mathematics is that of  
"squaring the circle." By squaring the  
circle is meant the problem of finding  
the sides of a square exactly equal in  
area to a circle of given diameter. To  
do this, either by elementary geometry  
or by expressing it arithmetically in  
commensurable numbers, has been found  
to be an impossibility. In other words,  
the ratio between the diameter and the  
circumference of a circle cannot be ex-  
actly found, even though in the division  
the decimal be carried out to 10,000  
figures. The above being the exact prob-  
lem in the case, we will say that the prob-  
lem of "squaring the circle" is one that has  
long been given up by the mathema-  
ticians as insoluble.—St. Louis Repub-  
lic.

**It All Depends.**  
"So you and Miss Brown have been  
married," said the St. Paul man pleas-  
antly.

"We have," replied the Minneapolis  
man, with just a shade of suspicion in  
his tone.

"Made one, as it were."

"What?" The Minneapolis man was  
more suspicious than ever.

"I say you have been legally made  
one."

"Not for the purposes of census enu-  
merators, sir," returned the Minneapolis  
man quickly. "I looked that up myself  
before I proposed. We count as two in  
the census, and don't you forget it!"—  
Chicago Post.

**PECULIAR** in combination, pro-  
portion and preparation of ingredi-  
ents, Hood's Sarsaparilla possesses great  
curative value. You should TRY IT.

**He Wouldn't Bring an Action.**  
There is a story told of a very eminent  
advocate, now no longer with us, who  
once, while endeavoring to dissuade a  
friend from going to law, was asked  
what he would himself consider a rea-  
sonable ground for bringing a lawsuit.  
"My dear fellow," he replied, "I do  
not say that under no conceivable cir-  
cumstances would I take proceedings  
against any one, but I do say that if at  
that moment you deliberately reject my  
ink on the tablecloth, I checked my writ-  
ing at the window, threw that volume of  
reports at the bust of Blackstone, 'made  
hay' with my furniture and finally  
tweaked my nose, I should no doubt use  
my best endeavors to kick you down  
stairs, but, once rid of you, either by  
force or persuasion, no power on earth  
should induce me to bring an action  
against you."—Westminster Gazette.

**A Witty Compliment.**  
At the first performance of Dumas'  
"Etranger" everybody appeared to be  
so preoccupied and wore such a serious  
countenance that Marshal Cambrert,  
who happened to be present, remarked it,  
and inquired thereupon. Mme. Bro-  
han, it is recorded, answered:

"We are on the eve of a great battle,  
and I suppose fear affects us all you see."

"Fear?" the marshal said, looking  
round with a puzzled air.

Mme. Brohan immediately summoned  
an attendant and briefly said, "Please  
a dictionary for the marshal."
